FOR IMMEDIATE RELEASE

RTC Entertainment, Inc. is ready to release their exciting, new motivational Agenda/Lesson Planner to the public schools. This Agenda/Lesson Planner is a unique learning tool, which was developed to stand on its own merits, or work in harmony with and provide positive reinforcement to the wholesome, positive message presented through RTC Entertainment's live comedy concert, A FIGHTING CHANCE. AFC's live comedy stage production is presented free of charge upon request in the public school arena by RTC Entertainment, Inc. in cooperation with local school districts. Whether the Agenda/Lesson Planners are used apart from AFC or in conjunction with the show, the agendas are designed to reinforce a positive message throughout the school year, providing a unique symphony of educational aids that work together to encourage character education.

RTC Entertainment's Agenda/Lesson Planners offer a unique, new approach to encourage character building for students in the public schools. Personalized with your school logo, coordinated with teachers' lesson plans, and customized with all other important school information for students and parents, the Agenda/Lesson Planners are an affordable motivational tool to help teachers inspire students in the development of good character qualities, personal responsibility, and good citizenship.

Each inviting, colorful page of the Agenda/Lesson Planner is designed with teachers and educators in mind. Easy-to-use, month-at-a-glance schedule planners highlight each monthly character quality theme and serve as an effective vehicle of communication with parents, keeping them informed of day-to-day assignments, projects and activities. The Agenda/Lesson Planners also include important in-class tools for teachers and educators to help encourage the children along the way. Interesting facts and historic events included in each section add interest and help to enhance understanding and development.

RTC Entertainment, Inc. and A FIGHTING CHANCE don't claim to have all the answers; we just strive to be part of the solution!
